Flashcards Just Got Flashier!

Think flashcards are old-fashioned? Not anymore. We have revamped the concept to give students in our Exam Review and Exam Review Enriched courses a powerful new learning tool. Our 300 new interactive, online flashcards put the learner in the driver's seat by giving you the power to choose and define several practice parameters. You can also create and name personalized decks for just the topics you want to study, while keeping track of which cards are mastered and which you still need to learn.

Combined with QBank (our cutting edge, interactive practice exam tool), the new flashcards make a powerful combination for testing your knowledge so you know you're ready on exam day. Receive both when you enroll in either of our two Exam Review courses.

(Already enrolled? Access the new flashcards by connecting to QBank from your course. Then, on your Dashboard, look for them under your Widgets.)

Human Milk for Older Infants and Toddlers

Lactating parents of older nurslings face unique challenges. Enhance your ability to help this important segment of your clientele with our new online course, [Human Milk for Older Infants and Toddlers](#). You'll learn about challenges parents face, starting solids, weaning, tandem nursing, and more, from a physician whose practice includes a large percentage of extended breastfeeding families.

What is the Natural Age of Weaning?

It's an age-old question. What do history, anthropology, and comparative biology have to say?

Another topic covered in this course, with a new blog post.
